LOS ANGELES COUNTY WATERWORKS DISTRICT NO. 29, MALIBU EMERGENCY INSTALLATION OF 6-INCH WATER MAIN

On September 3, 2002, one of the District's emergency contractors, Colich and Sons, was called to assist District staff with installing approximately 3,500 feet of 6-inch-diameter water main at the Saddle Peak interconnection with Las Virgenes Municipal Water District to our Saddle Peak tank. This work was necessary due to water shortage in various areas of Topanga. The work was completed on September 9, 2002, at the estimated cost of \$20,000. Colich and Sons is one of three as-needed, on-call emergency contractors with contracts approved by your Board on December 1, 1998. We committed to reporting to your Board all emergency repairs carried out under these contracts.
